Summary

Agile professional with experience developing and building cloud solutions. Confident DevOps Engineer with exemplary expertise in routine application maintenance tasks, including troubleshooting and testing.

Technical Profile

Enterprise Technical Support, Exchange Online and cloud developer, with great troubleshooting and case-management skills. I have skillfully resolved support requests with customer verification in Microsoft Exchange for enterprise and Azure support scope using GUI and PowerShell scripting. I am passionate about developing solutions with continuous integration, continuous deployment, and an agile mindset on my GitHub repository. With the increasing demand for technology, I intend to continue improving and learn with an organization that has the vision to build, develop and scale globally.

Competence

DevOps Stack: Kubernetes, Docker, CircleCi, Azure DevOps, Jenkins, Git/GitHub, Linux
Web Development: JavaScript, HTML & CSS, React, Wordpress
Design/C.R.M: Figma, Adobe XD, Photoshop, Rave, Intercom, HubSpot
